### TIME TO WAKE UP

CPYRGHT

An American traitor, who for 18 years acted as a Soviet spy—his treason was documented—is allowed to leave the country with his mistress. Col. Golenewski, who attempts to help the United States by exposing high-level Communists in our government is smeared as "mentally ill." And now the State Department arrogantly transfers six loyal anti-Communist security men to ineffectual positions. Awake and take action, patriotic Americans. It is later than you think.

SEAN KELLY

Manhattan

CPYRGHT

The tremendous pressures brought to bear against any person or group which tries to warn of the threat from within should wake up sleeping Americans to the awful Pavlovian treatment they have been given by our clever enemies over the years. I hope this nation is not too drugged and befuddled to rise and demand immediate and full investigation of all charges, and the removal and public exposure of all those who committed

treason, either as actual enemy agents, or by remaining silent and permitting our country to become infested with such men.

MARGARET FALLON

Glenview, Ill.

Please do not give up until this dangerous situation is cleared up, and the guilty ones brought to trial or deported.
